

Ground Spike

Fixing point for soft ground applications

FEATURES

- Used for soft ground applications
- Designed for use with Titan Leda and Cressida products
- Tough anodised finish
- Comes with stainless steel M4 mounting screw.

DESCRIPTION

The GROUND SPIKE has been designed as an additional feature for the LEDA, CRESSIDA and TITAN RANGE.

It simply fits directly onto the Bracket of any of the three light fittings using a stainless steel M4 HEX SCREW (supplied) at the top of the Spike. Once this simple assembly is complete the Spike, plus the fitting, can be inserted in to the ground application.

The bracket system on the fitting can then be manipulated to alter the direction of the light to suit the application.

Typically used for outdoor applications.
