

Aqua LED - RGB

RGB submersible light modules

FEATURES

- RGB Colour changing
- Powered by Luxeon Rebel™
- Weatherproof to IP68
- Strings of up-to 12 modules
- Ideal for underwater lighting and outdoor applications

DESCRIPTION

The Aqua LED RGB product is flexible string of IP68 LED light modules that allows designers and architects to create the mood, or effects required for a variety of outdoor projects. Typically used for under-water lighting this unique product can also be used for retail displays, signage, back lighting or architectural lighting. Available in standard strings of 3, 6, 9, or 12 and with 250mm spacing between modules.
